To the voters of Mercer County, this is former State Senator Dick LaRossa, writing to you to ask you to support and vote for Bryan "Bucky" Boccanfuso for Mercer County Sheriff.

When I was in office, Trenton and Mercer County did very well: The city got a ballpark, a hotel, an arena and the Old Barracks and the War Memorial were saved from destruction. And aid to the city and Board of Education hit record levels. However, what many may not know is my background in Law Enforcement.

One of my uncles was a Trenton cop and my father was Captain of Detectives in the Mercer County Prosecutor's office. In addition, I was a member of the 90<sup>th</sup> recruit class of the NJ State Police. So, I have a very good insight regarding Law Enforcement.

Mercer County's Sheriff's office has been virtually invisible regarding Law Enforcement in Mercer County and community participation. When was the last time you saw a Sheriff's officer or car on the street assisting our municipal police officers? There is a need for a much more proactive head of Mercer County's Sheriff's office. That can only happen by electing someone with a plan and a lifetime background in Law Enforcement. That Person is Bryan "Bucky" Boccanfuso.

If you are tired of crime in Mercer County and nothing being done about it, it's time to change. That can only happen by putting someone in charge that has a proactive plan and the background to change things for the benefit of all Mercer County residents. That person is Bucky "Bryan" Boccanfuso whose lifetime has been dedicated to Law Enforcement and proactive community involvement.

This is an outstanding resume' for an outstanding candidate. If you are tired of the same old politics from the same old politicians who have been in office far too long, "Bucky" Boccanfuso will be a welcome change and breathe of law enforcement fresh air. I give him my unconditional support.

When it is time to vote, cast your vote for a welcome change, vote for Bryan "Bucky" Boccanfuso.

Sincerely,

Senator Richard J. (Dick) LaRossa, (ret)
